

Hazardous Materials Officer/Hazardous Materials Safety Officer Course

Brief Description:

This course covers the competencies in NFPA 472-2013, Chapter 10 and Chapter 11.

Full Description:

The Hazardous Materials Officer/Hazardous Materials Safety Officer course covers the competencies in NFPA 472-2013, Chapter 10, Competencies for Hazardous Materials Officer and Chapter 11, Competencies for Hazardous Materials Safety Officers. This course provides the students with the necessary skills, knowledge and tools to perform both the Hazardous Materials Officer and Hazardous Materials Safety Officer functions within the incident command system at a Hazardous Materials/WMD incident. As the HMO you will assist the Incident Commander in analyzing the complexity and estimating the potential outcomes of the HazMat/WMD incident, planning the best way to respond to that incident, implementing the response objectives for the IC and evaluating those objectives and making changes when needed and bringing the incident to a proper termination. As the HMSO you will assist the IC with the task of analyzing the safety of the scene, evaluating hazards and response information, assisting in planning a safe response, ensuring the implementation of a safe response, evaluating those objectives and making changes when needed and bringing the incident to a proper termination.

Resources Required:

Hazardous Material Technician-Required ICS 100-Required ICS 200-Required

Course Dates/Times:

March 26, April 16, and May 1, 2019 (all three sessions must be completed) from 8:00am to 5:00pm

Location:

GCHMU Headquarters 1881 East Crescentville Road Sharonville, OH 45246

THIS IS A FREE COURSE FOR PARTICIPANTS
