Description:

The Sports and Special Events Enhanced Risk Management and Assessment Course provides participants with tools and methodologies for conducting venue and event specific risk assessments. Participants will utilize assessment outputs to make risk mitigation decisions and determine how to measure the effectiveness of decision-making. This innovative training will introduce methodologies designed to complement and expand on national critical infrastructure framework guidelines. The interdisciplinary course stresses the importance of leveraging and applying proven practices to a wide-range of sport and special event safety and security risks.

Due to current public health concerns, this course is being offered virtually in partnership with the City of Blue Ash, NCS4 and TEEEX.

Date/Time:

February 23-25, 2020
9:30 AM—2:30PM daily

Location:

Virtual
