

Emergency Response to Ethanol Incidents & Foam Operations (4-hour course)

No Cost to Attend!
(Course fees paid by the Hamilton County LEPC)

The transportation and use of Ethanol is on the rise and with this increase comes the additional potential for Ethanol-related emergencies. This 4-hour course is like no other course around!

- Classroom discussion on the chemical & physical properties of Ethanol, uses, and response considerations.
- Discussion about the different types of firefighting foam and their limitations
 - Air Monitoring with Ethanol Emergencies
 - Students will participate in multiple live Ethanol fire training scenarios

Target Audience: Fire Service, HAZMAT, Emergency Management, Law Enforcement, Emergency Medical Services, Healthcare, and Industrial Emergency Response.

Certificates will be issued to students who attend the course

Location: Blue Ash Fire Department Station 13

10647 Kenwood Road, Blue Ash, OH

June 15, 16, or 17, 2021 (0800-1200 hours each day)

Registration: email doug.witsken@hamiltoncountyohio.gov
