

Training for Real World Responses

COURSE DESCRIPTION: Developed by responders, for responders, this is the foundational, patented system that started it all – This one-day class, taught in a straightforward easy to understand methodology, takes the typically complex world of Hazardous materials and simplifies it for street level responder. Each participant receives a set of laminated Above the Line/Below© charts which allows them to efficiently size-up any chemical in minutes, determining the hazards, meters and PPE required.

New in 2022 – Updated program, updated cards, and new HazMatIQ Certification Program!

LEARNING OBJECTIVES:

The HazMatIQ 4 – step system consists of:

Step 1) Revolutionary 10 – second “Above the line – Below the line” chemical size-up.

Step 2) Verifying/adjusting initial size-up using HMIQ Charts and a reference source.

Step 3) Choosing the appropriate meter(s) and protective equipment

Step 4) Operating safely in the hot zone based on mission
